

POWDER & INDUSTRIAL COATINGS

## Architectural Applicators

Architectural Aluminium Powder coaters are able to apply to become a Dulux Registered Applicator. The Registered Applicator net work was set up to manage the application of warrantable architectural grade powders, to ensure that correct procedure is followed and the resultant coatings comply with their appropriate AAMA specification (AAMA 2603:1998, AAMA 2604:1998, AAMA2605:1998.)

Each warrantable Architectural grade powder has its own comprehensive applicators manual detailing exact procedure from preparation, through application, documentation and testing. The registered applicators are subjected to regular audits, to confirm continued compliance to procedure and as a result of the audits the applicator is recertified or in the case of non-compliance, is issued with actions designed to correct the non-compliance.

Only Dulux Registered Applicators are able to issues warranties for these architectural grade powder coatings.
